

TOP SECRET

DRAFT

Chit to SA/PD/DCI to cover:

25X1A The attached draft has been distributed to the ARC-UAB to show the approach that [] and I have taken after having heard the advice of the committees. I propose that the following actions be taken:

a. A discussion by you with [] and 25X1A Reber.

b. A discussion with General Cabell in which it might well be recommended that he discuss these papers with Admiral Frost and, depending on the outcome of that, possibly with the IAC prior to, if the need should remain, a discussion between Mr. Dulles and Admiral Burke.

In the event that a reconciliation of views is not feasible through the means outlined, the decision of the Director should be confirmed at the White House before transmittal to Admiral Burke.
